PREFACE

One-fourth of the 53 million acres of land in Idaho is administered by the Bureau of Land Management. This national resource land enhances the total environment and contributes many values to the people of this State and our Nation. The Bureau of Land Management is committed to the principle that this land be devoted to the best combination of uses for recreation, wildlife, minerals, wood products, water and forage; for community growth, for educational and industrial expansion to enhance the nation's growth and man's physical environment.

This booklet contains statistical information on activities of the Bureau of Land Management in Idaho which are pursuant to the Public Land Laws and Departmental Regulations.
